

ProACT
ULTRA-PREMIUM BRAKE PADS

Ultimate Performance with OE Quality

- Clean Wheels
- Virtually eliminates Noise, Vibration and Harshness (NVH)
- Unrivaled Stopping Power
- No Break-in Required
- Vehicle-Optimized Ceramic Formulas for Superior Performance
- Rotor-Friendly with Proven Longer Rotor Life

Pro-ACT Ultra-Premium brake pads apply the same materials, engineering, quality standards and advanced technologies used to create OE ceramic brake pads. They restore the OE-designed brake pad performance the vehicle had when it was new. That means satisfied customers and no comebacks.

akebono
BRAKE EXPERTS

Technology to Stop the World.™

www.AkebonoBrakes.com

Outstanding Performance Backed by the Most Comprehensive R&D in the Industry!

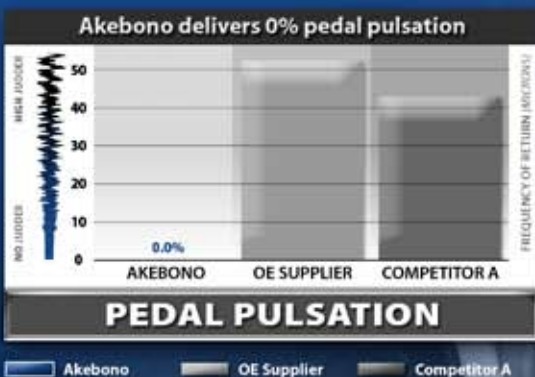

- Ultra-Quiet
- Low-Dusting
- Smooth Braking
- Fade Resistant
- Fast Recovery
- Consistent Pedal Feel
- No Break-Ins Required
- Upgrade from Conventional Pads

Akebono Pro-ACT Ultra-Premium brake pads are the aftermarket's only OE-validated, application-specific friction formulations. This guarantees that Pro-ACT Ultra-Premium brake pads provide the ultimate braking experience – reaching new performance levels or even better.

When installing Akebono Pro-ACT Ultra-Premium brake pads, customers will receive OE-quality replacements. Akebono knows the precise definition of OE-quality by the Original Equipment Manufacturers, as Akebono bids on all vehicle platforms and model years in North America.

Pro-ACT delivers over 73% less pad wear at 100° C
